“It provoked all sorts of thoughts about the modes of disembodied communication we engage in now - televisual, internet - how trust and agency are still called upon and how intense and liberating is the sense of touch... I didn't want to leave.”

ARTS HOUSE

“A 3am ride through loneliness, frenzy, banality and cliché. A performance you can watch, create, perform and control. Thrashing Without Looking is an experiential work that combines performance with live cinema. It is a textured and disorienting journey that considers the agency of the audience in a mediated space.”
